To Freeman, Zachary <zjfreeman@clarkcountyohio.gov>

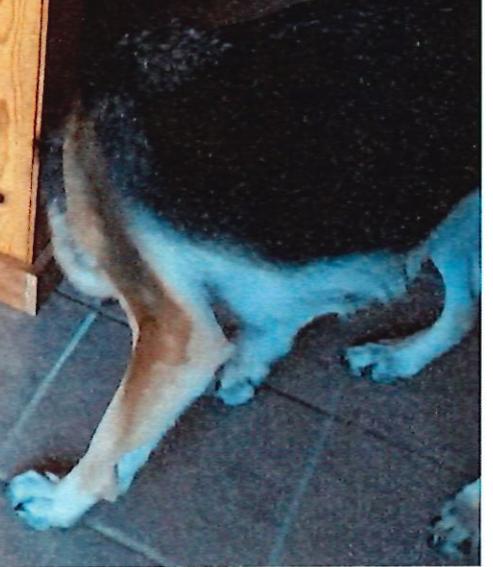

Good morning!

Thank you for following up.

I hope you can tell that the basement is to one side of the finished room on the ground floor. Pictures show that the basement was finished

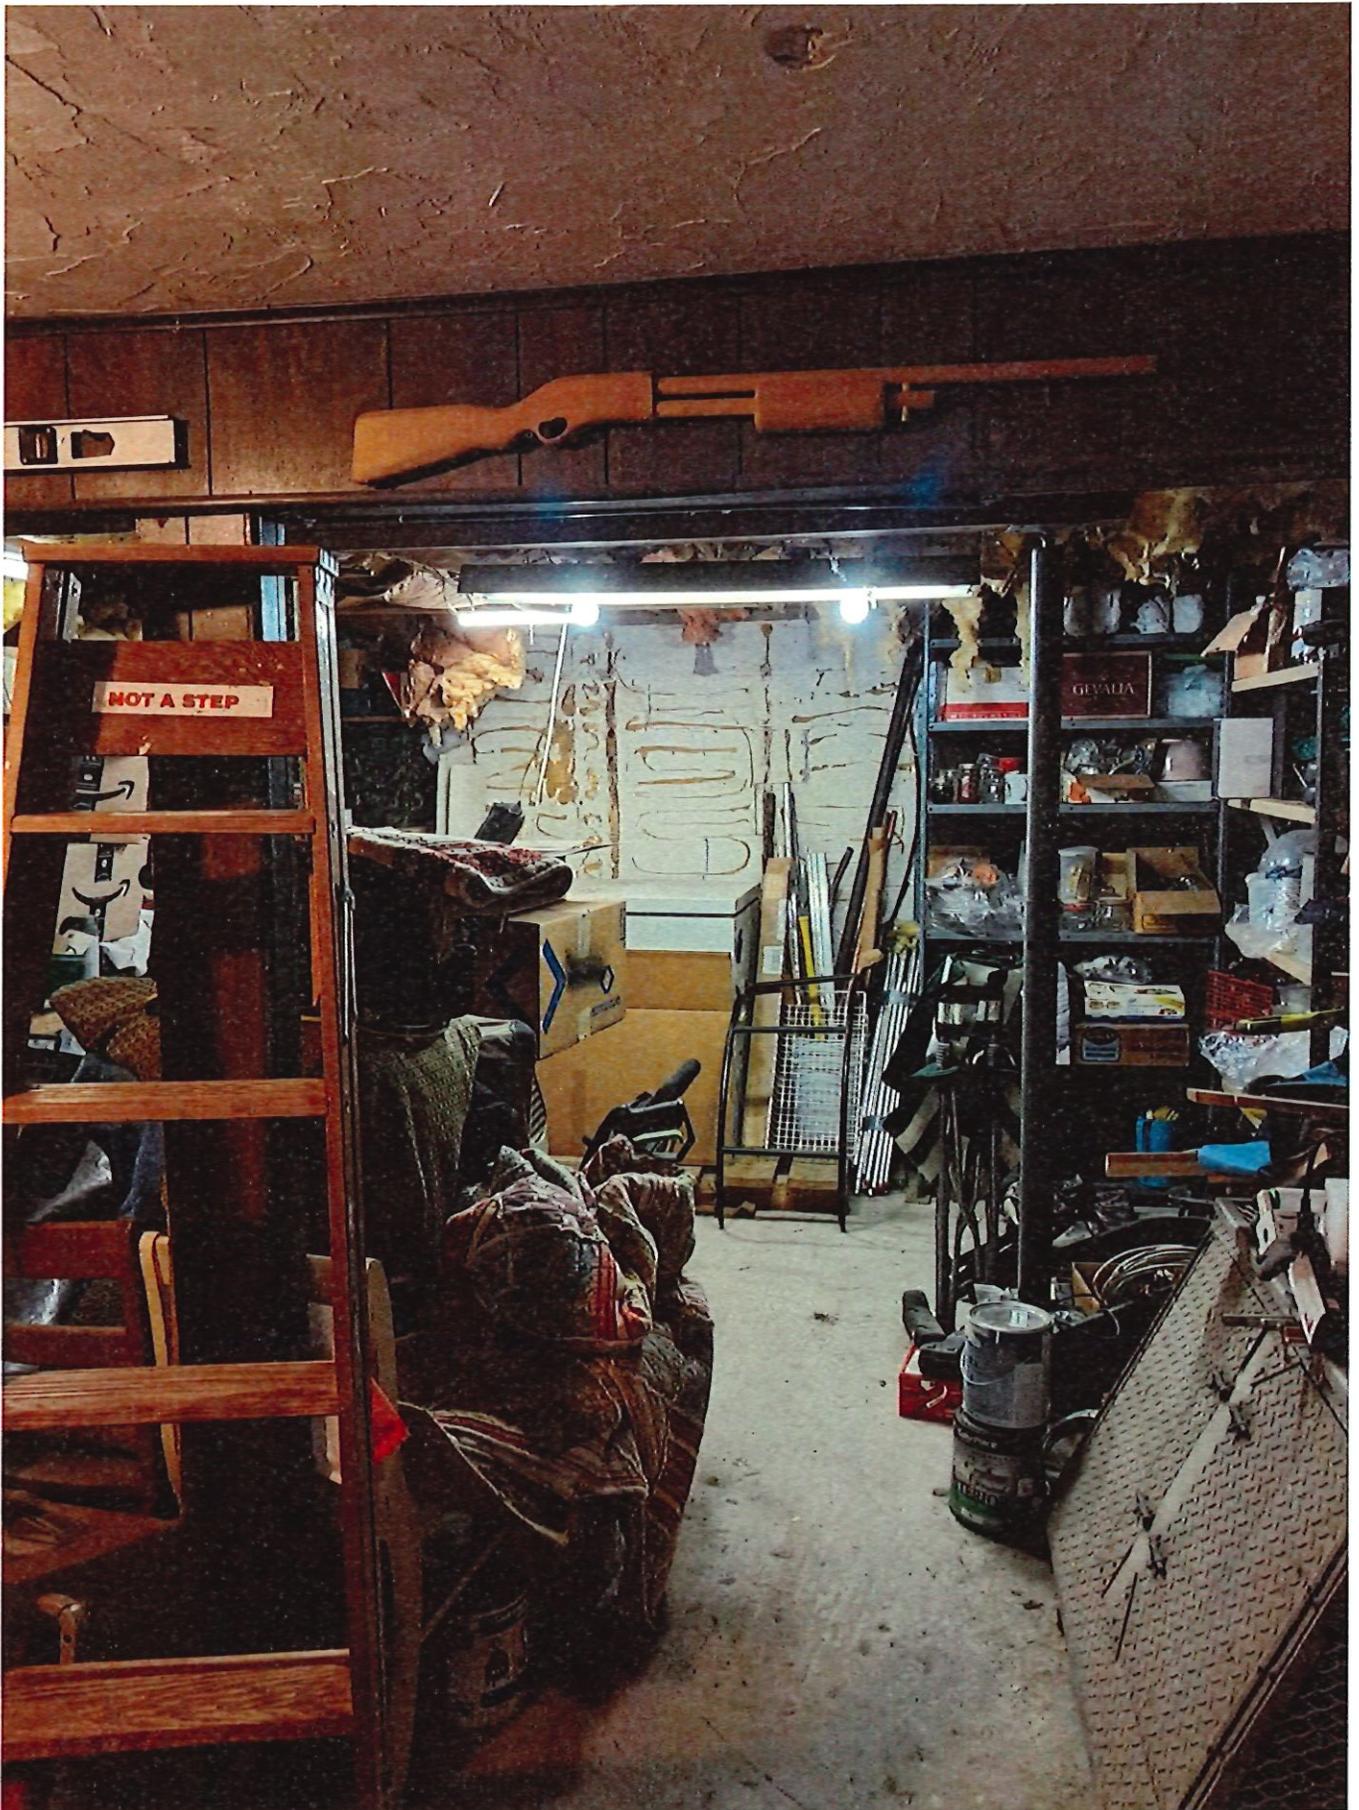

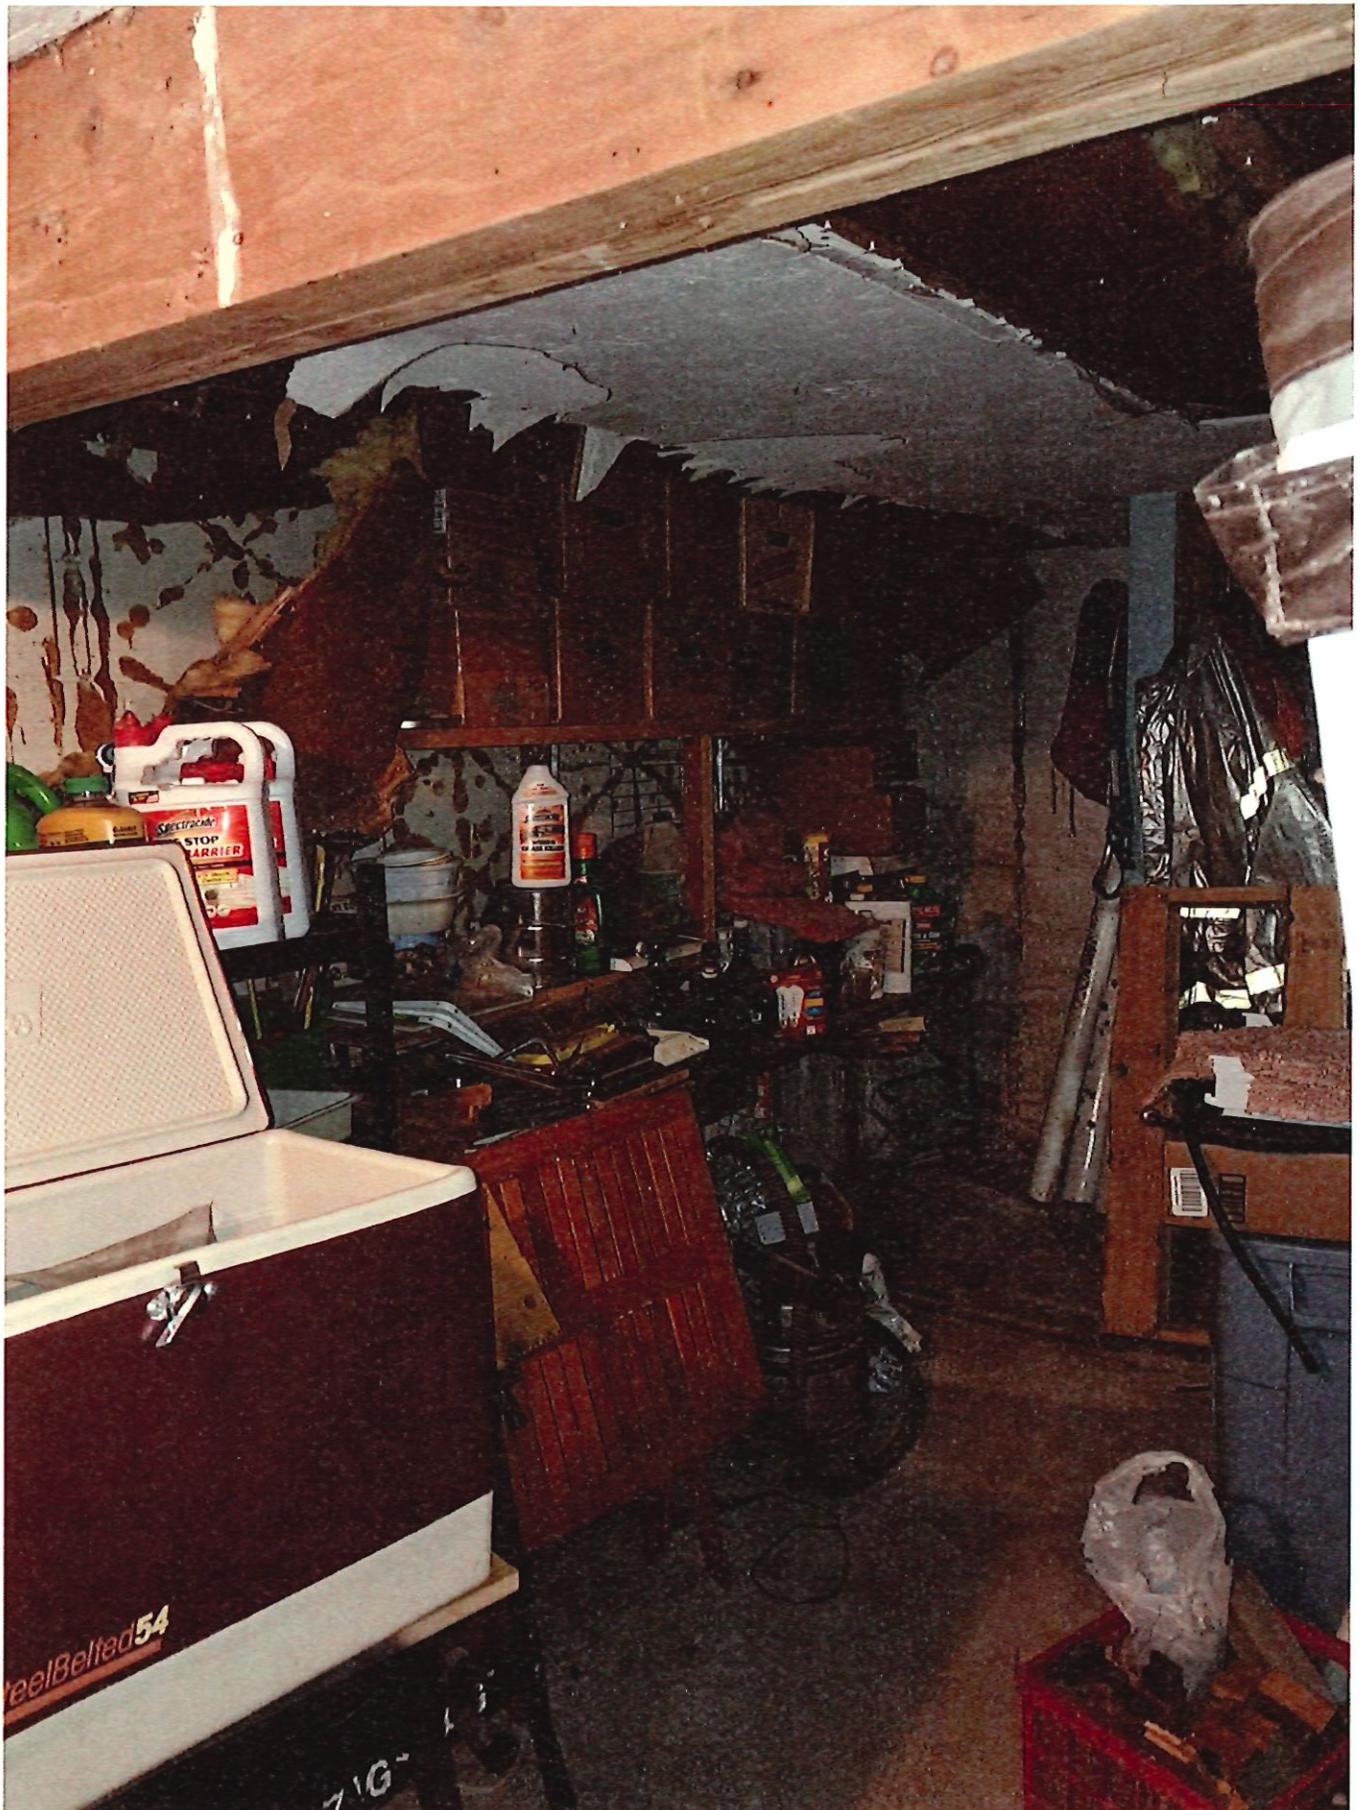

Remington-UMC  
.22 Cal. Repeating Rifle

at one time but suffered significant water damage and is now unfinished.

I agree, much of our treasure should be buried.

Thank you for your time and attention.

Good Morning,

I am reviewing your board of revision that was sent in for 860 S Houston Pike. Are you able to provide pictures of the unfinished area to add with the forms? It will help us understand the layout of the house better in making a decision. Thanks.
